

JOHN CHICHEBE ENEH

Fullstack Developer & AI Engineer

Abuja, Nigeria | johnenehc@gmail.com | linkedin.com/in/john-eneh-c | github.com/johneneh

Professional Summary

Graduate of Materials and Metallurgical Engineering with strong communication, leadership, and organizational skills. Currently training as a Fullstack Developer and AI Engineer with expertise in HTML, CSS (Vanilla and Tailwind), JavaScript, AI prompting, vibe coding, tokenization, and the MERN stack. A team player, diligent, and fast learner with a passion for building scalable web applications and integrating AI models to enhance system automation. Committed to achieving success through technical innovation and analytical problem-solving.

Technical Skills

Languages: HTML5, CSS3, JavaScript, Python

Frontend: React, Next.js, Tailwind CSS, Vanilla CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs (MERN Stack in progress)

Database: MongoDB, MySQL (MERN Stack in progress)

AI & Emerging Tech: AI Prompt Engineering, Vibe Coding, Vibe Engineering, Tokenization, LLM Integration, OpenAI API

Tools & Platforms: Git, GitHub, VS Code, Figma, Agile/Scrum

Soft Skills: Leadership, Communication, Team Collaboration, Fast Learner, Analytical Problem-Solving

Technical Training

Fullstack & AI Engineering Trainee *November 2025 – Present (Expected December 2026)*

Turing Tech LLC | Virtual

- Developing scalable web applications using modern full-stack frameworks and integrating AI models to enhance system automation
- Collaborating on agile teams to build and deploy end-to-end software solutions focused on performance and user experience
- Mastering HTML, CSS (Vanilla and Tailwind), JavaScript, AI prompting, vibe coding, tokenization, and the MERN stack
- Building responsive, user-centric interfaces with modern frontend architectures

Projects

Personal Portfolio Website*HTML, CSS, Responsive Design*

- Designed and built a professional personal portfolio website from scratch using HTML and vanilla CSS
- Implemented responsive design principles ensuring optimal viewing across mobile, tablet, and desktop devices
- Created cinematic starfield background, 3D flip cards, and animated UI components using pure CSS
- Deployed live portfolio showcasing projects, skills, and contact information

Travel Agency Website — Destinations Page*HTML, CSS, Team Collaboration*

Group Project Collaboration

- Collaborated in a team project to build a comprehensive travel agency website
- Owned and developed the Destinations Page featuring integrated search filters and dynamic content display
- Worked closely with team members to ensure design consistency and seamless user experience across all pages
- Applied agile collaboration practices including code reviews and version control with Git

Mamaput Online*Responsive Restaurant Website | Vibe Coding, Vibe Engineering*

- Built a fully responsive local restaurant website called "Mamaput Online" using vibe coding and vibe engineering methodologies
- Leveraged AI-assisted development to rapidly prototype, iterate, and refine the user interface and experience
- Implemented mobile-first responsive design ensuring seamless ordering experience across all device sizes

- Created intuitive navigation, menu display, and contact sections optimized for local food business needs

VIBERISE*Motivational Website | Vibe Coding, Vibe Engineering*

- Designed and developed VIBERISE, a motivational website aimed at encouraging people and spurring them toward success
- Utilized vibe coding and vibe engineering to rapidly build and iterate on inspirational content and interactive features
- Created engaging UI/UX with motivational quotes, success stories, and goal-tracking elements
- Focused on accessibility and emotional impact to reach and inspire a broad audience

Education

B.Eng. Materials and Metallurgical Engineering*2014 – 2019*

Federal University of Technology Owerri, Imo State | Second Class Lower Division

West African Examination Council (WAEC)*2003 – 2009*

National Grammar School, Nike Enugu

First School Leaving Certificate (FSLC)*2001 – 2003*

Abakpa Nike Primary School, Nike, Enugu

Leadership Roles

Assistant Departmental Course Representative*Federal University of Technology Owerri*

- Acted as primary liaison between faculty and students, managing logistics for a large student body
- Coordinated academic schedules and student welfare initiatives
- Demonstrated strong organizational and communication skills in high-pressure academic environments

Undergraduate Research Lead*Federal University of Technology Owerri*

- Led a group project investigating the "Effect of Calcined Clay on Mechanical Properties of Aluminum-Clay Composite"
- Managed research timeline, delegated tasks, and presented findings to faculty panel
- Developed analytical and problem-solving skills through experimental design and data analysis

Workshops & Conferences

- **Jamie Pajoel International (JPI) Youth Convention** | Abuja, 2026 — Global leadership and entrepreneurship summit focused on "Big Vision, Bold Steps"
- **TxE Africa (Tech & Entrepreneurship Summit)** | Enugu, 2023 — "Innovation Unleashed" conference exploring technology and regional economic growth
- **Project Up Research Bootcamp** | UNESCO Partnership, New Delhi (Virtual), 2021 — 15-day intensive program focused on Sustainable Development Goals (SDGs) and leadership capacity development
